RükTECH Internal Engine Coatings

PISTON TOP COATING

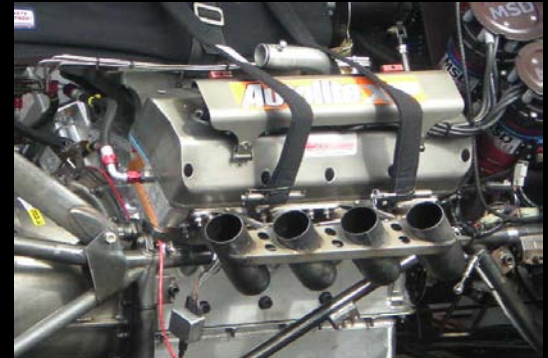

SOLID DRY FILM COATING

RükTECH has race-proven coatings for your Performance Engine to keep it running at peak performance. With today's High Performance Engines High Temperature Ceramic and Internal Component Coatings are paramount to winning. Call today and see how our Internal Performance Coatings will make your Engine Perform at Peak Performance.

Benefits of RükTECH Piston, Bearing, and Internal Coatings:

- Applicable to New or Used Pistons
- New Bearings can only be coated
- Increases Radial Tension Life of the Rings by preventing heat soak
- Enhances Flame Propagation and decreases coking
- Eliminates Cold and Hot Sticking
- Internal coating on the piston can increase oil shedding
- Lower running temperatures on Bearings
- 5x to 10x more Bearing life
- Increased oil retention and protection from heat and pressure
